

## Sterile check valve

- Fully traceable wetted materials, also traceable seal available
- Suitable for CIP and SIP
- Flow direction selectable
- Self draining in vertical installation position

Type BBS-10 can be combined with...

**Type 8650**  
Automation system

**Type 2103**  
Diaphragm valve

**Type BBS-07**  
Tank flange

**Type BBS-05**  
Clamp connection

**Type BBS-03**  
Welding union

**Type 8221**  
Conductivity sensor

These sterile check valves are designed for fluids and steam. The design is such that the flow direction is selectable; that makes installation and simple and very cost effective. The latest standards in the biopharmaceutical markets are met. The construction provides a continuous flushing and the unique feature of the eccentric checkvalve is that it can be mounted in the vertical position and will self drain until empty providing the correct angle is achieved according to standard installation techniques. All BBS-10 check valves are suitable for a wide range of duties in many of the applications listed below.

### Applications

- Biotechnology
- Pharmaceutical
- Chemical industry
- Dairy
- Food
- Cosmetic

### Technical data

<b>Available standard sizes</b>	ISO DN08 to DN100 BS-OD DN1/4" to DN4" DIN DN08 to DN100 Customized on request
<b>Material medium contact</b>	Stainless steel 1.4435 BN2 (316L) Ball cap made of PTFE Spring: 1.4401 Special materials on request
<b>Material medium separated</b>	1.4305 or equivalent
<b>Ball</b>	1.4435 BN2 stainless steel with PTFE-Ball
<b>Seals</b>	O-Ring, EPDM, FEP, special sealing materials on request
<b>Surface quality</b>	Medium contacted surface < Ra 0.8 µm, electro polished, finer surface on request
<b>Operating temperature</b>	depending on the chosen seal material
<b>Ambient temperature</b>	-20 to +80 °C
<b>Media</b>	Liquids
<b>Design, operating pressure</b>	- 1 to + 16 bar (operating pressure - 1 to + 8 bar) Standard opening pressure 0.2 bar Higher or lower pressures on request
<b>Applicable Standards</b>	Pipe connection acc. to DIN 11866 ISO-Dimension Series B (ISO 4200) BS-OD-Dimension Series C (ASME BPE) DIN-Dimension Series A (DIN 11850) Conformity assessment acc. to DGRL 97-25-EG
<b>Certifications</b>	Material 3.1 FDA for all the stated seal materials USP VI for EPDM, FEP, PTFE
