

Inductive Sensor with Full-Metal Housing

I18G001

Part Number

weproTec

- Easy sensor configuration using the IO-Link interface
- Innovative ASIC circuit technology
- IP68/IP69K
- Minimal mounting clearance thanks to wenglor weproTec
- Stainless steel housing

The inductive sensors with full-metal housing are suitable for harsh ambient conditions and washdown areas thanks to the 316L stainless steel housing. The sensors with full-metal housing impress with their easy installation and reliable switching behavior. In addition to error-free operation of several sensors in a very small space, the new generation also provides the possibility of detecting system errors before it's too late thanks to ASIC, IO-Link interface and wenglor weproTec.
