# Top Mounted Strobe

**Critical Environment Technologies™**

**OPTIONS & ACCESSORIES**

The Top Mounted Strobe is a factory installed option that is available at the time of order of the DCC and FCS Controllers. This high powered, red LED flashing beacon offers excellent flash intensity, durable vibration resistant construction and a long life. It is made of polycarbonate and has an IP65 rating.

Ideal for refrigeration applications; when combined with the Manual Shutoff Switch, meets B52 code requirements. May be used in emergency shutdowns, ventilation purges and other similar practices.

NOTE: The Top Mounted Strobe does not have an audible feature.

## KEY FEATURES

» Lightweight, durable
» Weather and corrosion resistant
» Excellent flash intensity
» 4 User selectable flash patterns

## APPLICATIONS

» Parking Garages
» Refrigeration Plants
» Equipment/ Machinery Rooms
» Manufacturing Plants
» Food Processing Plants
» Power Generation Plants
» ... and many more

## CET COMPATIBLE PRODUCTS

FCS Flexible Control System Controller

DCC Dual Channel Controller
